
Microsoft Surface Laptop 3-15â€• Touch-Screen

Description

A groundbreaking Retina display. Powerful dual-core and quad-core Intel processors. Fast flash storage. High-performance graphics. Great built-in apps. And now in the 13-inch model, a revolutionary new Force Touch trackpad and even longer battery life.¹ Whatever you can imagine, MacBook Pro with Retina display gives you the power to create.

The design of MacBook Pro packs a lot of power into not a lot of space. Because we believe that high performance shouldnâ€™t come at the expense of portability. And despite being so compact, the new 13-inch and 15-inch MacBook Pro with Retina display models now deliver up to 10 hours and nine hours of battery life, respectively â€” an hour more than the previous models.
